

M4A1 RIII™

We took our battle-tested M4A1 design and made it even more operator friendly by adding a fully ambidextrous lower to provide right- and left-handed shooters with more flexibility and control. We also swapped out the RIS II rail system with our new RIS III system, which reduces weight by using M-LOK attachment instead of picatinny.

FEATURES:

- + 14.5" chrome-lined, heavy-phosphate-coated M4-profile barrel features a pinned & welded DD Flash suppressor to extend length to NFA-required 16"
- + Fully ambidextrous lower enables shooter to operate important rifle mechanisms without moving dominant hand from rifle grip
- + 12.5" RIS III Rail—modeled after the RIS II two-piece handguard developed for SOCOM—features M-LOK attachment for lighter weight while accommodating M203 attachment

SPECIFICATIONS:

Barrel Material:	4150 Chrome Moly Vanadium
Barrel Type:	Cold Hammer Forged
Barrel Profile:	M4
Rifling Twist:	1:7"
Gas System Length:	Carbine
Muzzle Device:	Flash Suppressor, EXT
Overall Length:	31 1/2" - 34 3/4"
Weight (unloaded):	6.39 LBS
Rail System:	RIS III 12.5
