## Sectors

- Fortune 500 Enterprises
  - Aerospace & Defense, Semiconductors, Technology, Financial Services, Biotechnology & Pharmaceuticals, Critical Infrastructure
- Government & National Security
- Academic & Research Institutions

## Global Impact & Advantage

- 18B+ documents processed with 23M+ new documents added daily
- Patented AI-powered risk methodology
- Zero-touch architecture—no internal client data required
- Combines open-source data, expert analysis, and AI for unparalleled insight

## Strider Strategic Intelligence Platform

Our Strategic Intelligence Platform helps organizations detect, assess, and mitigate nation-state threats targeting their people, technologies, and relationships. By combining proprietary data, expert analysis, and patented AI, the platform surfaces risks and insights that enable faster, more informed decision-making.

## What the Platform Delivers:

- People risks
- Supply chain & third-party risks
- Targeted technologies & talent flows
- Software supply chain risks
- AI-driven investigations
