

READY WHEN YOU ARE.

Mercedes-Benz Defence Trucks.

Mercedes-Benz
Trucks you can trust

MADE-TO-MEASURE SOLUTIONS FOR ANY SCENARIO.

Important tasks call for heavy-duty professionals. The Mercedes-Benz Defence Trucks deliver power and performance on every mission.

More online.

Arocs, Atego, Unimog and Zetros have more sides to them than there are pages in this brochure. Detailed information on the vehicle concepts, features and technical data as well as explanatory videos and animations have been provided in our digital product information. Available anytime, anywhere. And without the need for registration. Follow our online references and find out more.

AT ALL TIMES, IN ALL PLACES.

The star is the difference. It stands for trucks you can trust.

As part of the Daimler Truck AG, the world's largest commercial vehicle manufacturer, Mercedes-Benz Defence Trucks offers you a tailor-made solution to any operational need – with our Unimog, Zetros, Atego or Arocs families.

We provide you with an effective answer to your challenges, be it for transport of personnel, material, heavy-duty tasks, dangerous goods, or humanitarian aid. And our vehicles give you reliability and performance in all conditions, including off-road and long haul scenarios.

The best proof of our ability to deliver on promises is the trust placed in us by militaries across the globe – for over 100 years, in more than 80 countries.

A one-stop solution to your needs.

- ✓ Defence vehicles based on extensively tried-and-tested volume-production trucks
- ✓ Tailored and optimised to meet all military user requirements
- ✓ Guaranteed product and service quality – Made in Germany

PARTNERSHIP.

At Daimler Truck, we have harnessed our experience in volume manufacturing to establish a tailor-made production process with dedicated facilities, experts and bodybuilders. The resulting vehicles are specifically designed and built for military challenges. The process can be leveraged for both standard and new, customised solutions.

For OEMs, we can tailor our Special Chassis and component kits to the specific needs of individual military applications – for virtually any type of vehicle, from APCs to armoured heavy recovery trucks.

Our portfolio encompasses a wide range of emission classes, from Euro III to Euro VI. So you will find the right solution for your needs, in Europe or in other parts of the globe. Where roads end and the toughest terrain begins, Mercedes-Benz all-wheel drive trucks are trusted partners to armed forces worldwide.

MAXIMUM MOBILITY.

In freezing temperatures and scorching desert heat, on paved roads and rugged terrain. You need versatile vehicles that are safe, and simple to operate and maintain. And that are reliable by design.

Fast and unstoppable – with a robust chassis and technology expertise that has been unrivalled for decades. Mercedes-Benz Defence Trucks have been evolved and tailored for a variety of military scenarios.

Thanks to our central tyre inflation system (CTIS), powerful propulsion from Euro III to Euro VI and innovative suspension design, you can count on maximum mobility, even under the most adverse conditions.

Setting the standard.

- ✓ Poor fuel ability
- ✓ Efficient cooling system
- ✓ Special filter systems
- ✓ Engine starting aids, auxiliary heaters and temperature-resistant materials

SERVICE.

Complete solutions tailored to customers' needs are the heart of our Mercedes-Benz Trucks Service and integrated logistics support (ILS). We offer a seamless supply of maintenance, repairs and operations (MRO) materials to safeguard the ongoing availability of assets and resources. Because in the military, uptime is everything.

Our approximately 5,000 authorised workshops in over 160 countries mean we are there for you and your Mercedes-Benz Defence Trucks. Our extensive experience enables us to provide tailor-made service offerings. We have also developed standard service solutions designed to meet typical customer requirements. Additionally, ILS and CLS contracts can be tailored in line with specific needs.

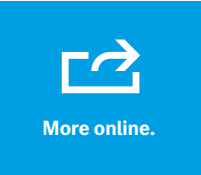

A global presence.

- ✓ Full-spec ILS and CLS capabilities over the planned service life
- ✓ Highly skilled and experienced ILS managers and service personnel
- ✓ Mission support via field service representatives
- ✓ Long-term logistics support
- ✓ Train-the-trainer programme
- ✓ Fleet management options
- ✓ Excellent spare parts availability

FOR SPECIAL NEEDS.

Customized solutions up to 56 t gross vehicle weights.

Our extensive experience in designing, developing and building the Mercedes-Benz special-vehicle range means we have the expertise to create a top-quality chassis for military purposes. Our tried-and-tested mounting points and interfaces allow you to implement your custom body.

Our most popular chassis is a modified version of the one installed in the Mercedes-Benz Unimog: the extremely mobile and versatile 14.5 t Special Chassis, which has already been widely deployed for diverse body types. The result – after customer-specific testing – is a premium Mercedes-Benz product that includes our bodybuilder certificate.

All our Special Chassis are industrially trialled and tested for special superstructures. From the engine, to the drivetrain, wheels, frame, steering, and operating console – proven components from the world's largest truck manufacturer that are tailored to your operational requirements, and that ensure your special vehicles are exceptionally robust and mobile.

Available axle configurations:

8x8 | 6x6 | 4x4

**AT THE END OF THE DAY
ONLY ONE THING COUNTS.
YOU NEED EQUIPMENT AND
PEOPLE YOU CAN TRUST.**
