## FOR IMMEDIATE RELEASE

### MAXRES Unveils Construct: The Future of Ultra-Rapid Courseware Creation

MAXRES is thrilled to announce the release of their groundbreaking software, Construct. This innovative tool leverages Generative AI to create secure, safety-critical training materials, designed specifically for small teams to rapidly develop and maintain courseware. Optimized for VR headsets but software agnostic, Construct allows deployment on any platform, enabling training delivery anywhere.

Construct stands out as an ultra-rapid courseware creation tool, empowering users to build and update training programs with unprecedented speed and efficiency. Whether for virtual reality or other platforms, Construct ensures that training is secure, accessible, adaptable and compliant.

MAXRES will be showcasing the latest version of Construct at IT<sup>2</sup>EC 2025. Attendees are invited to visit stand B91 for a full demonstration and to experience the ease of ultra-rapid course building firsthand.

#### About MAXRES

MAXRES is a leading provider of innovative training solutions, dedicated to enhancing the efficiency and effectiveness of courseware development. With a focus on cutting-edge technology and user-centric design, backed by SMEs with a wealth of experience, MAXRES continues to push the boundaries of what's possible in training creation and delivery.
