

Naval Optronic Systems

A130

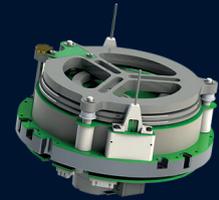

High performance multifunction antennas
for all Optronic masts and periscopes

▷A130-3

▷A130-2

▷VUHF Tx

| Naval antennas: EW, VUHF, GNSS, AIS, radar, satcom

MTT1

Optronic Masts:
Attack, Search, Navigation

▷SE180
ø180

▷AT80
ø80

▷NA360
ø180

▷RA600
ø600

| Modular masts, with 360° day, night and thermal sensors

At Photospace, we specialize in designing, manufacturing, and integrating high-performance components across various cutting-edge fields.

Our expertise lies in:

- **Optronics:** Developing advanced optical and electronic systems for precision and efficiency.
- **Micromechanics:** Crafting intricate, small-scale mechanical solutions that drive innovation.
- **Radiofrequency Equipment:** Providing state-of-the-art RF technology to meet the demands of modern communication and sensing.
- **Ultra-Low Consumption Electronics:** Creating power-efficient electronic components that push the boundaries of sustainability and performance.

We embrace both custom-made solutions and Commercial Off-The-Shelf (COTS) technologies, ensuring adaptability and agility in addressing client needs. Our commitment to standardizing building blocks and products allows us to streamline production, ensuring high-quality, reliable solutions at scale.

With a focus on innovation and efficiency, Photospace is a trusted partner in delivering cutting-edge technologies integrated into user-friendly systems. These systems are designed to simplify day-to-day critical operations for professionals, resolving complex challenges with ease and reliability.

Thanks to our versatile approach, our solutions fits well for new-build and retrofit on manned and unmanned platforms.

OBSERVE

NAVIGATE

INTERCEPT

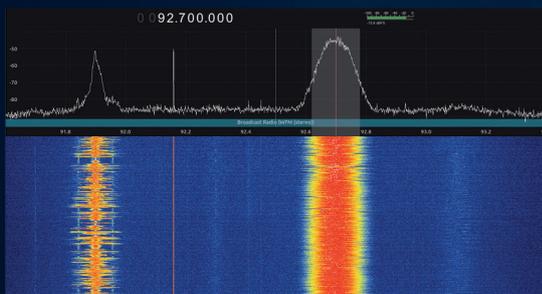

COMMUNICATE

Electronic warfare

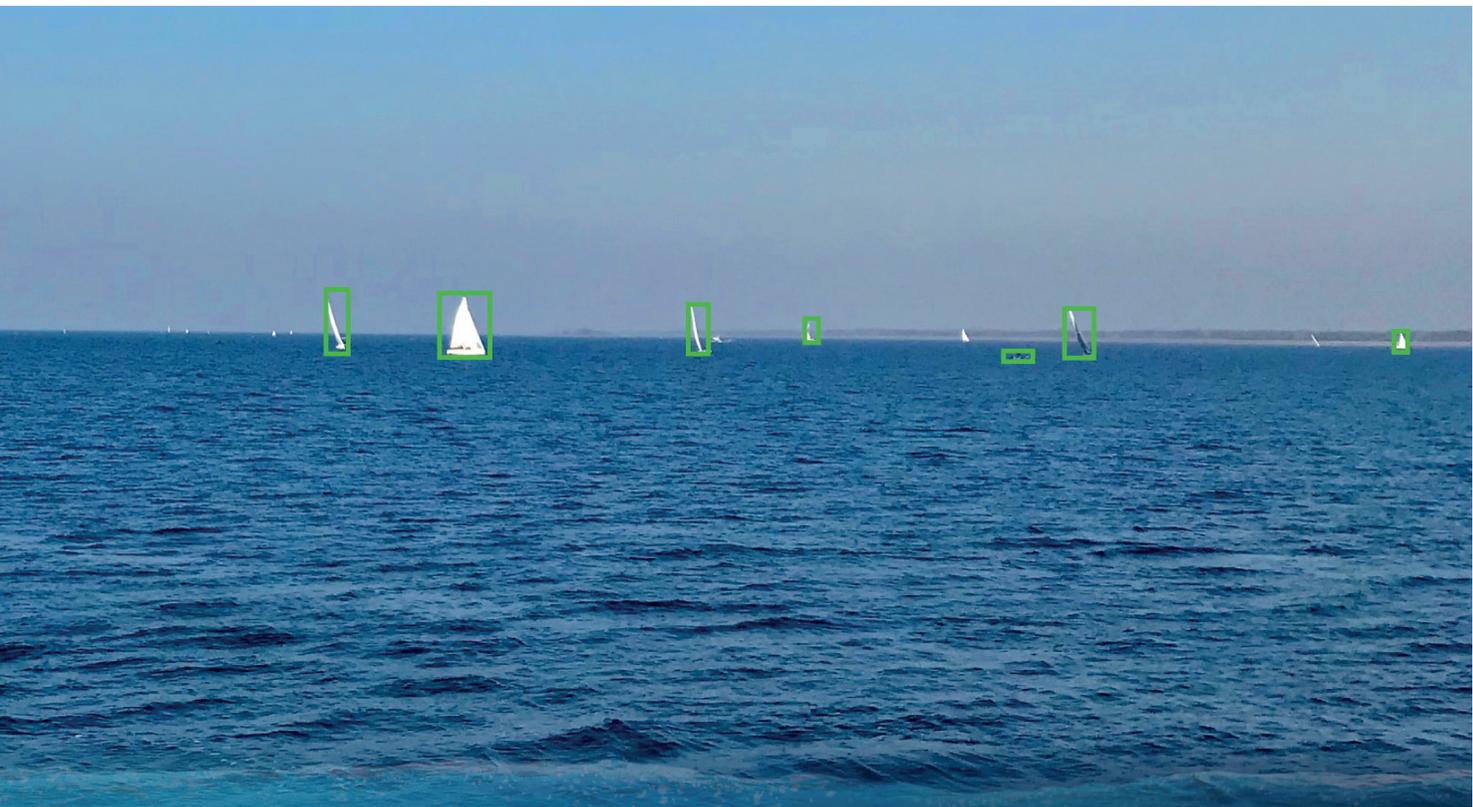

Capture all radio communications
Numerisation, identification, analysis

AI 360° vision

360° vision powered by Artificial
Intelligence with advanced Identification
and characterisation capabilities

INTERCEPT

COMMUNICATE

Console

- ✓ Control your masts and sensors
- ✓ Manage your operations
- ✓ Interface with CMS & subparty systems

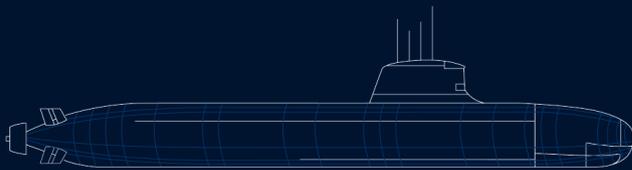

PHOTOSPACE

PHOTOSPACE is a pioneering French company with a high level of expertise in the fields of electronics, optronics, radiofrequency, IT, and embedded system integration. We design, develop, and manufacture ambitious radiocommunication solutions and optronic systems for Defense & Security Agencies.

PHOTOSPACE is a major partner of the French Defense Procurement Agency (DGA) for participative innovation missions.
